RTX™ Carrying Cases

User Manual

Revised December 10, 2009

Features

- Easily store and tote your RTX. Conveniently packs your RTX, all of its accessories and drives for simple and accessible storage.
- Roll your RTX around with ease. RTX Carrying Cases include a retractable handle and integrated wheels for easy movement from site to site.
- RTX Carrying cases use custom foam specially designed around RTX products. They're housed in durable Pelican™ brand cases, which are watertight up to 30ft underwater and are virtually indestructible.
- The foam is engineered to fit snuggly against your fragile equipment and hard drives so that if the case is dropped or jostled the unit and drives will be safe.

Field Kit G-0

(For "hardened" 4-bay or low-profile 6-bay RTX products)

	Field Kit G-0
Pelican 1560 case	✓
